

## Loretto Hospital

Loretto Hospital is a community based, 187 bed acute care hospital providing comprehensive medical/surgical, mental health and social/ support services to the medically under served community of Austin, the largest community in Chicago. Serving residents of this west side neighborhood and surrounding communities for over 70 years, the Hospital has been and continues to be the area's largest provider of quality health care services and the largest non-governmental employer. Loretto Hospital is considered to be a safety net for thousands of area residents and working poor, many of whom receive medical care at Loretto Hospital but cannot pay for these services. Loretto Hospital recently opened the newly renovated and expanded Kimberly A. Lightford Emergency Room.

## Loretto Hospital Foundation

Loretto Hospital Foundation's sole purpose is to solicit resources to help fill in the funding gaps for Loretto Hospital. Foundation has purchased clinical equipment, transportation vehicles, and has supported many health programs and screenings in the Austin community.
